

## Lefebvre Engineering FZC

### HSE POLICY

1. The management and staff of LEFEBVRE ENGINEERING FZC have assessed the hazards and risks to health and safety within our activities, products and services, and have also identified the relevant aspects that we believe could have an impact on the environment.
2. In order to control these hazards and impacts, we have implemented an Environmental Health and Safety Management System (EHSMS) in line with statutory requirements of all applicable legal laws and other requirements. We are committed to implementing our EHS management system in line with the requirements of OHSAS 18001:2007 and the environmental requirements of ISO 14001:2004
3. We are fully committed to continually improving our EHS Management System in order to fully control the risks to occupational health, safety and prevention of injury and ill health, wherever possible, to prevent pollution, and have set, and will monitor performance against relevant EHS objectives and targets.
4. This policy is periodically reviewed to ensure its continuing suitability, and is communicated to all members of staff and persons working for, or on behalf of, LEFEBVRE ENGINEERING FZC, through induction and general awareness training, in addition to being displayed in strategic locations throughout the company.
5. This policy is also available to all interested parties including, where appropriate, members of the public.
